Print do Jenkins

The screenshot shows the Jenkins web interface in a Chrome browser. The page displays the 'Jenkins' logo, a search bar, and a 'Novo tarefa' button. Below this, there's a 'Histórico de compilações' section with a 'Tudo' filter. The main part of the interface is a table of build history for the 'BuchoCheio' job. The table has columns for 'S' (Success/Failure status), 'W' (Build icon), 'Nome' (Job name), 'Último sucesso' (Last success), 'Última falha' (Last failure), and 'Última duração' (Last duration). There are two builds listed: one successful build with a duration of 37 seconds, and one failed build with a duration of 34 seconds. The failed build has a message '-1 hora(a) 13 min' and a link to the failure details.

S	W	Nome ↓	Último sucesso	Última falha	Última duração
✓		BuchoCheio	5 min 1 seg #3	53 min #1	37 seg
✓		elicao	-1 hora(a) 13 min #1	N/D	34 seg
